Interactivity

Multi-media

Toolbox

TO MAKE A DIFFERENCE, YOU MUST BE DIFFERENT.

Hundreds of thousands of presentations are made every day around the world. Customers, visitors, employees, and spectators need to be informed; messages and content need to be communicated. However, in the age of multi-media, iPad and Social Media it is no longer sufficient to trot out your contents in a series of standard slides. If you want to inform with a lasting impression, you have to surprise, enthuse and entertain.

Welcome to ICT **smartPerform**.

Toolbox

- Simplicity
- Time saving
- Drag & Drop
- Format variety

SUCCESS WITHIN A FEW MINUTES!

smartPerform is the new way of presenting; innovative software, with which you can create multi-media and interactive presentations in no time at all. Without previous technical knowledge, without tedious formatting and without spending a lot of time you can use smartPerform to integrate your contents intuitively to create a breathtaking presentation.

In doing so, it does not matter which data formats you use: smartPerform unites all contents – from PowerPoint and Excel to videos, images and websites as well as PDFs and Flash-Applications – per Drag & Drop in a multi-format presentation interface. Just like an iPad, you can control the presentation simply by finger-tip and gestures and even change the sequence of the presentation dynamically at any time.

Product Presentation

1, 2, SHOWTIME!

ICT smartPerform

NOW YOUR CONTENTS LOOK GOOD EVERYWHERE.

As well as the unlimited variety of formats, smartPerform provides you with every possibility for output devices. Thanks to the unique flexibility, you can now communicate your contents and information effortlessly on lap-tops, Tablet-PCs, mobile end devices, Multi-touch Tables, interactive screens, or large format Video Walls.

In this way, your contents do not only come across quickly, sustainably and above all enthusiastically in conference rooms, but also at trade fairs, exhibitions, at Point-of-Sales, in showrooms or in TV-Studios.

Toolbox
